Gray & Cole, Ward Hill, Mass. 1956

P H L O X.

Phlox can be successfully planted in Aug. and Sept. if covered in winter to prevent heaving. We advise planting in April or early May, especially if it must be shipped.

50¢ each, \$1.35 for 3 of same variety, \$2. for 5 of same variety. Add 20% postage. Fall price, after June 15, 60¢ ea., \$2.75 for 5 same variety.

B.COMTE. Deep red-purple, velvety, rich, late, tall. Attracts attention. **CARMEN.** A seedling of ours with large heads of rich deep pink

flowers. Makes a bushy plant and blooms very late. **CHARLES CURTIS.** Very bright clear red.

DAILY SKETCH. Enormous flowers, light salmon-pink. Slow to increase. **E.I. FARRINGTON.** Soft salmon-pink with lighter eye. **FLASH.** Rich red.

GEORGE STIPP. Brilliant deep salmon-pink, strong grower. **PURPLE HEART.** Purple.

RUTH MAY. Very pale pink with dark eye. Very large trusses on plant of vigorous growth. Blooms late and freely. This variety, introduced by us, is the finest Phlox we have. **SIR JOHN PALSTAFF.** Large trusses of salmon-pink. New variety. **SIR MALCOLM CAMPBELL.** Bright orange-red. New variety. **TENOR.** Rich rose red.

WHITE. With pink eye. **WHITE ADMIRAL.** White.
